---

**New! Larger sheets and very easy to fix as usual**

Made from the latest technology, Onduline® sheets have a very low heat conductivity. They provide a perfect seal integrity in all climates and insulate against the noise of heavy rainfalls.

Lightweight and flexible, Onduline® sheets are specified by many architects in regions of the world exposed to the risk of hurricanes.

---

**1 piece = 1.61 m² (net covered surface)**

**+ 20 pieces**

**The slope must be minimum of 15 cm (15%)**
